

Sanremo,

**SUBJECT: PRESENTATION OF CURRICULUM VITE**

Herewith you find a copy of my professional experiences briefly resumed.

From about twenty years I carry out the activity of artisan plumber; first as employed and from more of nine years as proprietor of an independent activity duly inscribed at the Chamber of Commerce of Imperia.

The experience I reached gave me the opportunity to improve the knowledge of the materials and the more and more advanced technics at disposal in the hydraulic field.  
The continuous updating has become by now an indispensable part of my activity.

At the same time I refined a bigger and bigger attention to the clients' needs whether in the care of requirements, details, finishing-off or in the search of the best compromise costs-benefits.

The satisfaction and the importance of the work I developed up to now don't deprive me of the pleasure of searching new professional horizons. The opportunity to contribute to a new company of great prestige as yours would be for me a big target and at the same time an important professional challenge.

The target is due to the qualitative presence of your company in the international hydraulic panorama.

For as regards me, I can offer the baggage of many years' experience in the hydraulic field together with a great enthusiasm due to my still young age.

I ask you therefore for the opportunity of a job interview to consider, if possible, a collaboration.

I look forward to your reply.  
Yours faithfully.

ALESSANDRO GIANFORCARO

Alessandro Gianforcaro

Artisan plumber proprietor from 1998 of an individual firm. Responsible whether of works'execution or of supply and setting to work plumbing installations and maintenances.

In past times he consolidated his professional experience as employed of artisan firms in the mechanical and metal sector, thermotechnics and hydraulic sector.

He is strongly interested in the results and he has a good ability to relate to the clients and the suppliers. He express himself by carrying out works of middle-high complexity.

## WORK EXPERIENCES

1998: proprietor of the Alessandro Gianforcaros' artisan plumbing firm, registered in the Business Directory of the Chamber of Commerce of Imperia.

Principal activities carried out:

- Installation and maintenance of thermal systems by the "G. Borea" hospital of Sanremo (IM);
- Installation of new plumbing systems and bathrooms for disabled people by the Centro Anziani of the city of Taggia, by the "G. Borea" old people's home of Sanremo and by "Villa Serena" of Poggio di Sanremo (IM);
- Installation of plumbing and thermal-sanitary systems by private apartments. Installations with different levels of complexity and innovation (floor heating systems, solar panels, air-conditioning);
- Realization of the plumbing system of the block of flats "Terrazes Oceanique" (18 flats) of Nice (France);
- Maintenance Banca CARIGE in the zone Ventimiglia – Taggia (IM);
- Maintenance Banca SAN PAOLO IMI in Sanremo and Arma di Taggia (IM);
- Maintenance buildings of the city of Taggia;
- Maintenance of the "Zaccari" playing field of Vallecrosia (IM);
- Maintenance of some hotel constructions.

1992: employed by the Marino s.a.s. firm of Ennio Marino – Sanremo (IM).

In this time he has a great professional growth passing from worker plumber to specialized plumber at the highest level.

1989: employed by the Impresa di Costruzioni s.n.c of Bellin Gilberto – Arma di Taggia (IM). Starting as apprentice he became pipe-layer for the laying and the installation of methane gas pipelines for Italgas (ENI group).

1989: nine months of experience as apprentice plumber by Impianti Termoidraulici of Flavio Modena – Sanremo (IM).

1986: apprentice metal and mechanical worker by Metalmeccanica Vivaldi s.n.c. – Arma di Taggia (IM).

## **EDUCATION**

- ❑ Participation certificate of the GEBERIT technique of sanitary installation training course (2003)
- ❑ Course "Update for installers and maintenance men of thermal and plumbing system" with issue of certificate by Centro Formazione Professionale "G. Pastore" of Imperia (1998);
- ❑ Course "Update for installers and maintenance men of thermal and plumbing system" about the rules in force with issue of certificate by Regione Liguria (1995);
- ❑ Licence for the 20th degree thermal system management issued by the Work Inspectorate of Imperia (1993);
